

## *A Message from the Owner*

First of all, I would like to thank you for your interest in our company. I realize that you have a choice, so it's an honor that you would consider us.

Our original shop was started by my Dad in 1984 in Hudsonville, MI. After graduating from Ferris State University, I started the process of purchasing the business from my Dad which was completed in 2007. In 2008 we opened our second location in Byron Center. As of January 2020, we have six locations in the West Michigan area. Part of our guiding principles are to provide the communities that we serve a shop where ethics would be number one and they wouldn't have to worry about money being put ahead of people.

Since 1984, we have grown year after year. I'm confident the reason we have continued to grow is because the people we hire not only share our principles, but they love doing what they do, they embrace the ongoing education we provide, and they embrace the family spirit that we all enjoy so much.

In closing, you will find Dytech Auto Group's service centers unique in many ways. If you read our reviews, I suspect you will be quite impressed with what our customers have to say about us, and if you become part of our family you will discover why we are proud of many things, yet none more so than the incredible people that make up the Dytech family.

Thank you again for your interest in joining our family. It's an honor, to say the least.

Jim Dykstra  
Dytech Auto Group
